

MUSHAHID RAZA

Program Specialist 4 (Associate Program Manager) – Product Planning & Operations
mushahidraza1504@gmail.com | +91 7013922190

Operations, Program Management, and Product Operations professional with 5+ years of experience owning cross-functional programs, operational transformation, and customer-facing product rollouts in high-volume, data-driven environments. Proven track record of partnering with Product, Engineering, and Operations to deliver enterprise-scale initiatives impacting 45,000+ customers, modernizing global support infrastructure, and driving multimillion-dollar cost savings and measurable customer experience improvements.

CORE COMPETENCIES

Program & Operations Management:	Program Management, Product Operations, Strategy & Operations, Operational Excellence, Process Improvement, Product Rollouts, Go-to-Market (GTM), UAT, Agile, Scrum, Six Sigma (Yellow Belt)
Stakeholder & Leadership:	Cross-functional Leadership, Executive Stakeholder Management, Change Management, Program Governance, Risk Management, Strategic Planning, Executive Communication
Product & Analytics:	SQL, Data Analysis, KPI Reporting, Dashboarding, Root Cause Analysis, A/B Testing, Business Intelligence, Performance Metrics
Automation & AI:	AI Enablement, Workflow Automation, Process Automation, Operational Scaling, SOP Development, Incident Management, Continuous Improvement
Tools:	SQL, Jira, Looker, Salesforce, ServiceNow, Google Workspace, Microsoft Excel

KEY PROJECTS & IMPACT

- **Spearheaded the Mastermind automation initiative**, addressing manual support processes through scalable policy automation, impacting **45,000+ customers** and delivering **\$3M+ in annual savings**.
- **Led Uber's Global Phone Queue Modernization Program**, partnering with Product, Voice Engineering, WFM, and Regional Operations to simplify fragmented voice infrastructure by auditing **530+ global queues**, deprecating **118 legacy queues**, and migrating **412 active queues**.
- **Directed global telephony modernization** across LATAM, EMEA, and APAC, coordinating phone number transitions and PureCloud instance migrations ('.ie' to '.com') that delivered approximately **\$1.8M in annual telecom savings** while improving infrastructure resilience.
- **Owned the global migration strategy for 785+ phone queues** to V2 Contact Type Groups (CTGs), modernizing legacy routing architecture and enabling future automation, USEP adoption, and standardized voice operations.
- **Led AI transformation across 12+ customer support workflows**, identifying high-friction manual processes and implementing scalable automation that drove a **295 BPS improvement in CSAT** while enhancing customer and agent experiences.
- **Managed a portfolio of 15+ global strategic programs annually**, driving program strategy, stakeholder alignment, governance, risk mitigation, rollout execution, and post-launch optimization across Product, Engineering, CX, and Operations.
- **Partnered with Product and Engineering to address recurring operational pain points**, translating customer insights into platform improvements that reduced repeat contacts by **28%** and improved customer experience.
- **Led operational governance for high-impact platform incidents**, establishing structured response frameworks and cross-functional coordination that reduced **MTTR by 45%** while ensuring business continuity.
- **Established executive reporting and performance governance**, designing dashboards across CSAT, SLA, AHT, productivity, and automation metrics to support strategic planning and executive decision-making.
- **Served as the primary program stakeholder for six Team Leads supporting 120+ frontline specialists**, driving delivery governance, operational readiness, KPI alignment, and execution across multiple global initiatives.

WORK EXPERIENCE

Associate Program Manager – Product Planning & Operations Program Specialist 4

May 2025 - Present

Uber

- Led end-to-end program delivery across multiple strategic initiatives, defining scope, success metrics, execution plans, timelines, dependencies, and stakeholder communication to ensure successful delivery.
- Partnered with Product, Engineering, Policy, Customer Experience, Regional Operations, and Workforce Management teams to translate business requirements into scalable operational solutions and product improvements.
- Managed cross-functional stakeholder alignment by facilitating program reviews, driving decision-making, mitigating risks, resolving blockers, and ensuring execution across globally distributed teams.
- Owned operational readiness for global product launches, leading UAT, rollout planning, change management, SOP development, knowledge enablement, and post-launch performance monitoring.
- Established program governance and execution frameworks through standardized processes, documentation, risk management, escalation models, and success metrics to improve delivery consistency.
- Leveraged SQL, operational analytics, customer insights, and performance metrics to identify improvement opportunities, prioritize initiatives, support roadmap decisions, and influence business strategy.
- Developed executive reporting and business reviews, creating KPI dashboards, program updates, and performance insights to enable data-driven decision-making and leadership visibility.
- Served as the primary program stakeholder for six Team Leads supporting 120+ frontline specialists, driving delivery governance, operational readiness, resource alignment, and execution across multiple global initiatives.

Service Team Lead – Bugs & Outages (Tier 2)

Aug 2023- May 2025

Uber

- Led triage for product bugs, outages, and platform incidents, reproducing issues, performing root cause analysis, assessing business impact, and partnering with Product and Engineering to prioritize fixes and restore service.
- Served as the primary escalation point for critical operational issues, coordinating cross-functional stakeholders, communicating incident updates, mitigating customer impact, and ensuring timely resolution during live production events.
- Investigated recurring operational defects and customer pain points, performing root cause analysis and recommending improvements that strengthened service quality, operational efficiency, and customer experience.
- Partnered with Product, Engineering, Quality, Workforce Management, and Training teams to validate product changes, support feature launches, improve operational readiness, and implement scalable improvements.
- Developed and standardized SOPs, incident playbooks, and knowledge documentation, improving compliance, onboarding, execution consistency, and operational readiness across global support teams.
- Led a team of 35 Customer Support Specialists, driving performance through coaching, workforce planning, quality calibrations, and continuous improvement while consistently exceeding service, quality, and productivity goals.
- Conducted performance reviews, quality calibrations, and targeted coaching, mentoring frontline specialists through structured feedback and development plans to build high-performing, customer-centric teams.

Senior Risk & Compliance Specialist

Uber

Jun 2022 - Jul 2023

- Investigated and mitigated large-scale Account Takeover (ATO) fraud through data-driven analysis, identifying trends, reducing operational risk, and improving customer trust.
- Partnered with Risk, Product, Engineering, and Operations teams to enhance fraud prevention strategies, optimize workflows, and implement scalable process improvements.
- Drove policy enhancements, automation initiatives, and structured decision frameworks that improved fraud detection accuracy, operational efficiency, and investigation consistency.

EDUCATION

Bachelor of Engineering

ANITS, Visakhapatnam (2021)
